设立数智法学国际联盟的倡议

Proposal on Establishing the International Alliance for Data and AI Law

【Revised Version Based on Feedback (Proposed Draft)】

前言 / Preamble

我们，来自不同国家和地区的法学教育科研机构、法律实务机构的学者和专家，从事法学研究教育和实践工作，深刻认识到数字技术与人工智能正在全面重塑人类社会的生产生活方式，亦对既有法律体系与法学知识范式提出了系统性挑战。

We, scholars and experts from legal education and research institutions and legal practice institutions in different countries and regions, engaged in legal research, education and practice, are deeply aware that digital technology and artificial intelligence are comprehensively reshaping the modes of production and life of human society, and are also posing systemic challenges to existing legal systems and legal knowledge paradigms.

数据跨境流动、算法治理、人工智能安全与伦理、平台经济规制等议题，已超越单一国家法律框架所能应对的范畴，亟需全球法学界

以更加紧密的协同方式开展知识共创与制度对话。

Issues such as cross-border data flows, algorithm governance, artificial intelligence security and ethics, and platform economy regulation have gone beyond the scope that a single country's legal framework can address, and urgently require the global legal community to carry out knowledge co-creation and institutional dialogue in a more closely collaborative manner.

中国政法大学数据法治研究院作为中国首个设立数据法学学科的学术机构，同时承担着“教育部首批哲学社会科学实验室——数据法治实验室”与“数据法治学科创新引智基地（111 计划）”的建设任务，长期致力于数字时代法学前沿研究，服务数字经济、数字政府和数字社会建设的国家战略。研究院深度开展着中国人工智能立法、数据立法等前沿学术研究，持续推动全球人工智能治理的学术对话与规则协同。

As the first academic institution in China to establish a discipline in Data Law, the Institute for Data Law of China University of Political Science and Law (hereinafter referred to as CIDL) undertakes the construction tasks of both the "Ministry of Education Philosophy and Social Science Laboratory — CUPL Data Law Lab" and the "Data Law Discipline Innovation and Talent Introduction Base (111

Program)". It has long been committed to cutting-edge legal research in the digital age and serves the national strategy of building a digital economy, digital government and digital society. The Institute deeply carries out cutting-edge academic research on China's artificial intelligence legislation, data legislation, and continues to promote academic dialogue and rule coordination in global artificial intelligence governance.

基于共同的学术使命与责任担当，我们倡议共同发起成立“数智法学国际联盟”，以汇聚全球法学教育与研究力量，推动数智时代法学知识体系的革新与国际法治合作机制的构建。为此，我们共同发表如下倡议：

Based on our shared academic mission and sense of responsibility, we propose to jointly initiate the establishment of the "International Alliance for Data and AI Law" to bring together global legal education and research forces, and to promote the innovation of the legal knowledge system in the era of data and AI and the construction of an international legal cooperation mechanism. To this end, we hereby jointly issue the following proposal:
